

Pesquera Rodriguez SA, a company set up in 1940, holds 27.5% of the Spanish fishing quotas for cod in the sea-areas of North Atlantic, NAFO, Svalbaard, Norway etc. Furthermore, the company holds quotas for fishing black halibut, haddock, skate, nordic shrimp...

In its will to always offer products of the highest possible quality, **Pesquera Rodriguez** applies a policy of constant investment in its production process. Likewise other measures such as decanters and garbage selection prevent from any disposal of non-biodegradable material at sea and help strengthen company environmental commitment.

Using fuel treated with **Xbee** biotechnology also helps to protect the oceans fragile nature and the human health conditions.

After 4 years of using **Xbee** diesel, the fleet superintendent comments:

"We have clearly observed the capacity of this product to:

- ✕ clean up the tank walls;
- ✕ maintain the engines in perfect conditions of work (as shown by the pictures of the main engine of the *M/V Nuevo Virgen de Lodiairo* shot during the inspection in October 2011).

This having direct consequences:

- ✕ reduction of the maintenance costs (injectors, filters, . . .);
- ✕ improvement of the energy efficiency (reduction of both fuel and luboil consumption)."

Engines and fuels guarantees:

α **Xbee** is at least recognized by some of the most important engines manufacturers.

α On the other hand, **Xbee** respects the European regulation EN 590 Diesel norm and CSR 500 IFO 380 norm.
