

Eisenbahn-Bau- und Betriebsgesellschaft Pressnitztalbahn mbH (PRESS) is an established medium-sized railway transport company based in Jöhstadt in the Ore Mountains, Saxony, which has extensive experience in the transport of goods and passengers.

"We, the **Eisenbahn-Bau- und Betriebsgesellschaft Pressnitztalbahn mbH** are a medium-sized company running about 40 **locomotives** and 2 trucks.

We have had problems with the so-called ‚bacteria‘ in our diesel locomotives, starting about three months ago. After a long search, we came across **Xbee** and decided to test the product.

The result is excellent, after less than two weeks the problem was solved:

- normally contaminated pre-filters
- better fuel pressure
- better performance

We will probably extend the natural fuel additive **Xbee** to our complete fleet. On one hand, to make sure that the machine is operating smoothly, and on the other hand, to further reduce fuel consumption and minimize the wear of our engines.

For further information on our positive experiences with **Xbee**, please do not hesitate to contact us."

Purchasing manager workshop

Engines and fuels guarantees:

α **Xbee** is in compliance with the **CEC** tests, recognized by the **ACEA** that represents 13 of the main European vehicles manu-faturers. 
<http://www.acea.be>

α On the other hand, **Xbee** respects the European regulation EN 590 Diesel norm.
