

KÜBLER SPEDITION

The **Kübler Spedition GmbH** operates approximately thirty (30) trucks for heavy and extremely heavy road haulage.

These trucks can move weights up to 650 tons. Maximum traction is required by the trucks. In addition, a high degree of reliability is required for such difficult transports. As an environmentally conscious company, the **Kübler Spedition GmbH** attaches great importance to measures for the protection of the environment and for efficient resource management.

Using the Xbee Natural Fuel Additive, a green premium biotechnology based on plant enzymes, they have been able to reduce diesel oil consumption by up to 10 liters per 100 km, which represents **savings up to 9%**.

In order to be able to use the efficient and green **Xbee** premium technology in their entire fleet, they have been treating the transport company's gas station since September 2017.

Engines and fuels guarantees:

▫ **Xbee** is in compliance with the **CEC** tests, recognized by the **ACEA** that represents 13 of the main European vehicles manufacturers.
<http://www.acea.be>

▫ On the other hand, **Xbee** respects the European regulation EN 590 Diesel norm and CSR 500 IFO 380 norm.
